

# EXAM QUESTIONS 1

## BE-C1E-DE LICENCES

1. Are you allowed to drive in here with this trailer?

No.

2. How many trailers are you allowed to tow with this vehicle?

Only one trailer.

3. How can you tell that a vehicle with a trailer is in front of you?

By the 2 triangular red reflectors with the tip pointing upwards.

4. Where should you preferably not uncouple the trailer?

On an uphill or downhill slope.

5. You are driving with a loaded trailer and want to overtake another vehicle. What should you bear in mind?

The acceleration is less powerful and the overtaking distance is longer.

6. During emergency braking, can the overrun brake cause the wheels of the trailer to lock?

Yes.

7. Name the dimensions of this tyre!

Check picture template tyre.

8. When are you not allowed to park an uncoupled trailer on the public road?

Between 22:00 and 06:00.

## EXAM QUESTIONS 2

# BE-C1E-DE LICENCES

1. What is the speed limit for vehicles with trailers outside built-up areas (not on motorways) for this traffic sign?

75 km/h

2. Which documents are required for the trailer?

- Technical inspection certificate
- Insurance certificate
- Tax sticker
- Registration certificate

3. When do you have to make sure that the trailer's lights are working?

Before every journey.

4. You are driving with a loaded trailer and want to overtake another vehicle. What should you be aware of?

The acceleration is less powerful and the overtaking distance is longer.

5. When turning, does the trailer describe a larger, the same or a shorter arc than the towing vehicle?

A shorter arc than the towing vehicle.

6. Determine the age of the tyre! (Using the drawing) After how many years at the latest should you replace the tyres on the trailer?

After 6 years at the latest.

7. Check the number, placement and condition of the wheel chocks!

Check trailer.

## EXAM QUESTIONS 3

# BE-C1E-DE LICENCES

1. Are you allowed to drive in here with this trailer?

Yes.

2. What is the speed limit for vehicles with trailers in built-up areas?

50 km/h

3. When is it allowed to station an uncoupled caravan (roulotte) on a public road?

Never.

4. Do you accelerate if the trailer starts to lurch?

No.

5. Where should you preferably not unhitch the trailer?

On an uphill or downhill slope.

6. How often should you check the tyre pressure on the trailer?

At least once a month and before every long journey.

7. Check the function of the hazard warning lights, the presence of the warning triangle and the warning waistcoat!

Check vehicle.

# EXAM QUESTIONS 4

## BE-C1E-DE LICENCES

1.  May you turn left at this traffic sign?

BE: Yes, C1E: No, DE: No

2. What is the speed limit on motorways for vehicles with trailers?

90 km/h

3. What is the maximum load of this trailer?

Maximum authorized mass minus unladen mass (check grey card)

4. Name 2 causes that can cause a trailer to overturn!

- Excessive speed
- Incorrectly distributed load
- Unsecured load
- Crosswind
- Flat tyre

5. What is the minimum tread depth of trailer tyres?

1,6 mm.

6. How can you see that the trailer coupling is correctly engaged?

On the control pin of the trailer coupling (green « + » marking).

7. Explain how the safety rope (ripcord) works!

This is a steel connecting cable between the towing vehicle and the trailer's braking device. If the trailer detaches from the towing vehicle, this cable pulls on the trailer's brake and then breaks off.

# TIRE DESIGNATIONS

## BE-C1E-DE LICENCES

### DOT 1802

= Date of manufacture  
18th week 2002

### 205/55R16

205 = Tire width in mm

55 = Ratio of tyre width to tire height in %

R = Radial tire

16 = Rim diameter in inches

91 = Load index

T = Speed symbol

TWI = Wear mark

M+S = Winter tire
